Dear Sir,

TESTIMONIAL FOR MOSQUITO MAGNET TECHNOLOGY

Firstly, we would like to thank you for the Mosquito Magnet technology and service to our golf club. We are impressed with your business doing philosophy by always putting customers at the top of the list.

Our golf club was experiencing some problem with mosquitoes around our compounds and we found the periodic fogging activities are not sufficient to put a cap on the problem. With Mosquito Magnet in place at Club House area for the first unit, we found there is less complaint about mosquito attack.

To date, we have been satisfied with Mosquito Magnet and Versajaya's service. At the same time we have elevated our customer satisfaction to another level of advancement.

Thank you.

Yours sincerely,

Mohammad Riduwan bin Sarip

We previously found a lot of mosquito activities around our condominium's compound especially near to the pool side where there is a construction as neighbor. Now, we managed to solve the problem with Mosquito Magnet technology and have less mosquitoes' attack.

With helps from Mosquito Magnet Malaysia, we managed to trap at least thousand's of mosquitoes with three weeks time. That was the best result I have seen from a mosquito trap. The most important is that we are able to reduce the risk of getting mosquito's problem around us.

We are looking into to get more units for bigger compound protection, and also look into the proposal of reducing fogging activity which cost us a lot more in the long run.

Hi Dear Versajaya Team,

Thank you very much to Versajaya team for providing their exceptionally professional service and product (Mosquito Magnet) for protecting our hotel from mosquito problems. I was personally impressed and afraid of seeing those mosquitoes that Mosquito Magnet trapped in our garden.

Obviously, we have now less customers' complaints ever since we have Mosquito Magnet in place at our outdoor garden and pool side. That's indeed a very robust system for mosquito control. Not only we are benefited from better customers' satisfaction level, we are also be able to cut down the frequency of fogging in the long run and having an effect of saving amount of cost. As a social responsible corporate, we are proud to participate in this social responsibility effort to reduce mosquito's population around our area.

As a Facility Manager of Equatorial Hotel Penang, I strongly recommend Mosquito Magnet to my fellow counterparts from other hotels and clubs, and I will also be engaging their service and product again.

Thank you,

To whom it may concern,

The Banjaran Hotspring Resort, as a top notch 5-Star wellness and spa resort located in a beautifully crafted nature and surrounded by one of the oldest jungle in the world. Due to this reason, we spend a lot of effort in mosquito control. This is part of our job to keep the most distinctive hospitality experience for our guests.

Thanks to Mosquito Magnet, with this device, we managed to control the mosquito's population effectively and to make sure our customers are having their peaceful stay with us without mosquitoes' disturbance.

We foresee to acquire more Mosquito Magnet in our next expansion. I have no doubt to introduce this technology to my fellow friends and colleagues in the same industry. Thank you Mosquito Magnet!

Best Regards,

Raymond Koh

RE : MOSQUITO MAGNET AT SUNWAY LAGOON CLUB

Dear Mr. Terrence Loh,

The Sunway Lagoon Club management team had received some feedback from customers that there were quite a significant mosquito activities around the gym room area. The Gym is located by the side of our rain forest garden, and that's the place where we believed those mosquitoes came from. Even with our fogging done twice monthly, it only helped for a day or two only. So with our internal initiative, we have started to use Mosquito Magnet to try controlling the mosquitoes' population. After some time of deployment, we can really feel that the mosquito attack was reduced. We hope Mosquito Magnet will consistently be our main initiative to keep our members happy and safe from mosquitoes.

We would also like to take this opportunity to thank you and Versajaya Sdn Bhd for introducing this Mosquito Magnet equipment to reduce the mosquito population at our area. We will definitely recommend this technology to our other business associates. Thank you.

Your sincerely

Dear Mr. Loh & Versajaya team,

Me and my family are impressed by the effectiveness of the Mosquito Magnets in our garden and back yard.
Now, we do not need to use mosquito repellent anymore and can keep the windows open for fresh air.

We would like to thank Versajaya team for introducing this Mosquito Magnet to us and would definitely recommend this product to my friends.

Regards,
Sarah

To: Terrence Loh <terrence.loh@versajaya.com>

I have put both of the units below the pool deck on opposite sides of the pool because our bar, restaurant, game room and fitness facilities are all located around the pool deck and this is where the guests hang out and are most effected by bug bites. In the first 2 days the Mosquitos and sand flies around this area reduced by at least 60%, and each day seems to be getting better and better.

Thanks for the info and good to hear the co2 cartridges are not needed with every LPG tank change!

Best

Jordan

Hi Jordan,

That's very good to hear it works good for you.

Do you mind to snap some photos and the traps to show me? I hope we can remotely monitor the performance, and provide as many supports as we could for you.

Yes there is a CO2 cartridge, but it's not needed for every time you change the tank even though the instruction is saying this but trust me, you don't need that. You only need that maybe once a year, or once in a 6 months.

Our units here don't use this even they are 2 years old! But you can buy them from us once you need them next time.

Thanks,
Terrence

Hi Terrence,

Thanks for the follow up.

The mosquito magnets are running and working good, thanks.

I noticed in the instructions that I am supposed to flush out the line between each lpg tank change with some sort of small cartridge. Is that something special that I must get from you or is it something I may buy locally?

Thank you

Jordan

Hi Dear Jordan,

It's Terrence here again. How are you doing?

I'm writing to catch up with you if you got the mosquito magnet running already? How's the performance so

Dear Terrence

We are pleased with the operation and the effectivity of the units and we will consider bying one or more units later if needed.

That will wate until we have constructed one more house on the property.

Best regards God bless
